

cybelion
0-3-3

Premium biostimulant for yield enhancement

OVERVIEW

Cybelion® 0-3-3 is comprised of an aqueous fungal cell wall extract that supports vital processes that improve fertilizer response, leading to efficient use of nutrients needed for optimal plant growth. It is approved for use on a diverse array of crops and can be incorporated through various application methods to include drip, foliar spray or injected.

FEATURES & BENEFITS

Benefits of Using Cybelion® 0-3-3:

- Promotes crop vigor and increases overall plant biomass, strengthening crops
- Improves nutrient conditions for optimum plant performance
- Protects yield potential and improves harvest quality
- Ease of application – tank-mix compatible with most crop protectants and nutrient solutions

TECHNOLOGY AT WORK

How Cybelion® 0-3-3 Technology Works:

1. The fungal extract in Cybelion® 0-3-3 is rich in sugars – particularly mannose, glucose, and galactose – as well as proteins and peptides.
2. These organic compounds of relatively low molecular weight enhance a plant's ability to take up and utilize nutrients more efficiently by providing compounds needed for those metabolic processes.
3. This leads to efficient use of nutrients needed for optimal plant growth, resulting in a stronger crop which ultimately leads to better yield and harvest quality.

Product Profile

Mechanism of Action	<ul style="list-style-type: none"> Provides compounds needed for vital metabolic processes that improve fertilizer response.
Compatibility	<ul style="list-style-type: none"> Effective with a wide range of crop protectants, nutrient solutions, microbes and other biostimulants. Contact a product representative for a complete list of compatible products.
Active Ingredients	<ul style="list-style-type: none"> Aqueous fungal cell wall extract Monopotassium phosphate (MKP) Dipotassium phosphate (DKP)
Formulation	<ul style="list-style-type: none"> Soluble liquid concentrate (SL)
Packaging	<ul style="list-style-type: none"> 2 x 2.5 gal case (2 x 9.46 L), 275 gal tote (1,041 L)
Shelf life	<ul style="list-style-type: none"> 24 months from date of manufacture

Application

Tree & Vine Crops	21 to 42 fl oz/A; 3 to 4 applications per season
Fruit & Vegetable Crops	21 to 42 fl oz/A; 3 to 8 applications per season
Field Crops	21 to 42 fl oz/A; 1 to 3 applications per season
